(a) equal profile budget
(b) all profiles + k km of paired drives
pooled segment MAE (m/km)
profiled road with paired drives, k (km)
real cars, LightGBM (2.5-97.5 % of draws)
real cars, vibration index
simulation on the same k km of profiles, V0
simulation on the same k km of profiles, V1-V8
level offset, V0
level offset, V1-V8
joint training, V0
joint training, V1-V8
